

October & November Newsletter

This season we want to make sure families are aware of any important club information but don't want to send information out too far in advance that things will be forgotten about. So every couple months you will be receiving a newsletter from us that includes any upcoming events or activities, as well as other information we may need to relay to you.

If any skaters are interested in private lessons during Open Ice times (ice fees apply), please reach out to one of our club Freelance Coaches to discuss options further.
